### Resource Inventory of District Lower Subansiri, Arunachal Pradesh

#### LOWER SUBANSIRI DISTRICT AT A GLANCE

Lower Subansiri District of Arunachal Pradesh is located in between 92° 40' and 94° 21' East Longitude and 26° 55' and 28° 21' North Latitudes. In the North the District is bounded by Kurung-Kumey District and some part of Upper Subansiri District, West Siang District and some part of Upper Subansiri District is touching to the Eastern side, Papumpare District and State of Assam to the south and Kurung Kumey and Papumpare Districts to the Western side.

#### BACKGROUND

The river Subansiri, a tributary of Brahmaputra river had provided the name of the district as a undivided huge Subansiri district. The mother river subansiri that flows through Raga Circle of this District. The District was a part of North Lakhimpur District of Assam till 1914. In 1954, Subansiri Area was named as the "Subansiri Frontier Division" and its Headquarter was later transferred to a small township **Ziro**. Like other part of NEFA, the District was under the Ministry of External Affairs. On 1<sup>st</sup> September, 1965, the Ministry of Home Affairs took over the Administrative charge of NEFA from Ministry of External Affairs and Subansiri Frontier Division was named as **Subansiri District** and Political Officer (administrative in charge) was designated as Deputy Commissioner, Addl. Political Officer as Addl. Deputy Commissioner.

On 13<sup>th</sup> May' 1980, Subansiri District was bifurcated into Lower and Upper Subansiri District, Upper Subansiri District was established with its Sub-Division Daporijo, and remaining part of Subansiri District was placed under Lower Subansiri. On 22<sup>nd</sup> September, 1992, Lower Subansiri District was again divided and a new district Papumpare was formed. Latter, in April 2001, another split was encountered and a new Kurung Kumey was emerged as a separate district covering the Koloriang Sub- Division and some portion of Ziro (Sadar) Sub-Division.

The Lower Subansiri District covers approximately an area of 3,460(Approx) Sq. km. The topography of the District is mostly mountainous terrain, where the hill range varies approximately from 1000 to 1600 meters above sea level. A greater part of its falls within the Higher mountain Zone consisting of tangled peaks and valleys. Nature has gifted the heart land of the District in the form of magnificent plateau at above 1564 meters above sea level, where District Headquarter, Ziro is located.

The available resource data from the District Statistical Officer have been compiled and presented in tabular form.

Area : After division of the Kurung Kumay District, the geographical area of the Lower Subansiri district have limited to 3463 Km<sup>2</sup>.

**Agro Ecological Situations** : The district have Three Agro ecological Situations

No	Agro ecological situation	Characteristics
1	Agro Ecological situation 1 (AES-1)	High altitude (up to 5700ft asl), plain with gentle slope (1-5%), loamy soil, irrigated area.
